The illustration is a rich, detailed Art Nouveau style composition. A peacock is the central figure, its body and wings rendered in dark, textured feathers, with its long, flowing tail feathers showing a pattern of dark and light brown. The peacock is surrounded by a variety of stylized flowers and foliage. To the left, there are clusters of grapes and a large, open flower. To the right, there are more grapes and a large, stylized flower. The background is filled with intricate, swirling lines and patterns, creating a sense of movement and depth. The entire scene is enclosed within a decorative border consisting of a repeating pattern of small, stylized floral motifs.
